

Smart Learning Application

How To Use

The Main Dashboard

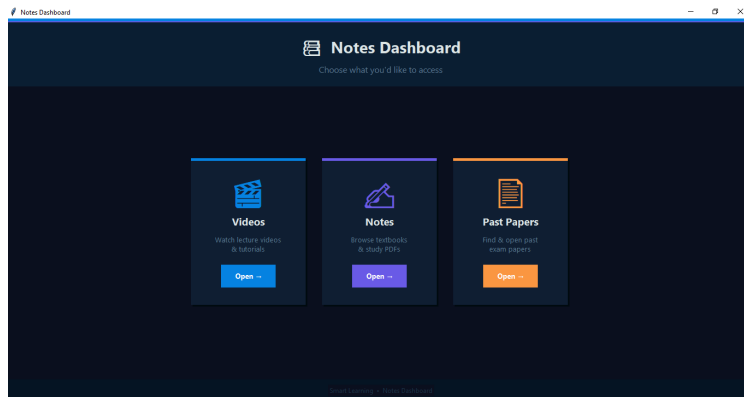

SMART LEARNING- NOTES & Resources

Module

How to Use the “Notes / Resource Finder” Feature

- ◆ **Step 1: Open the Notes Section**

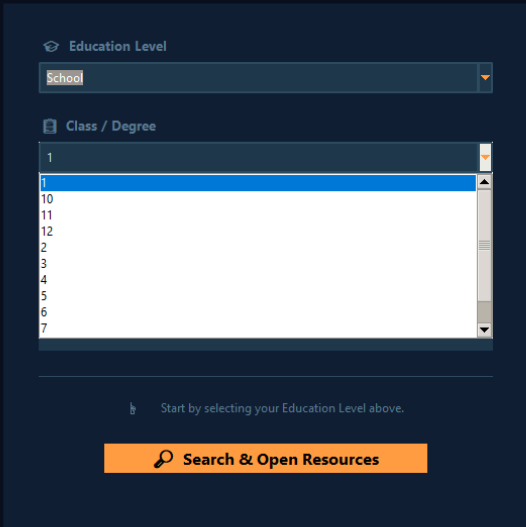

- Open the Notes / Resource Finder from your dashboard.
- You will see a form with options like:
 - Education Level
 - Class / Degree
 - Subject
 - Topic

◆ **Step 2: Select Education Level**

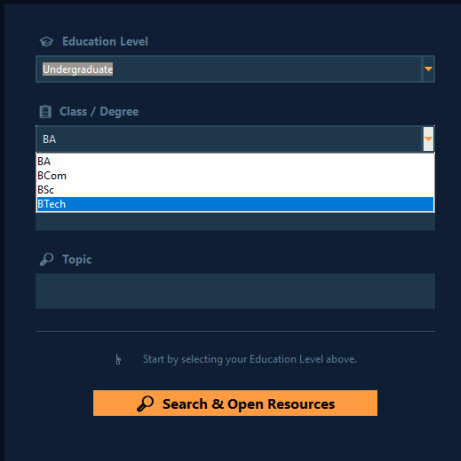

The screenshot shows a form titled "Education Level" with a dropdown menu. The dropdown is open, showing three options: "School", "School", and "Undergraduate". Below the dropdown is a "Subject" field with a search icon and a "Topic" field with a search icon. At the bottom, there is a "Search & Open Resources" button. A hint text says "Start by selecting your Education Level above."

- Click on **Education Level**
- Choose your level (Example: School, Undergraduate, etc.)
- This step is important because it filters all data based on your level

◆ **Step 3: Select Class / Degree**

The screenshot shows a dark-themed interface. At the top, there's a section labeled 'Education Level' with a dropdown menu currently showing 'School'. Below this is a section labeled 'Class / Degree' with a list box. The list box contains a scrollable list of numbers: 1, 10, 11, 12, 2, 3, 4, 5, 6, 7. The number '1' is currently selected and highlighted in blue. At the bottom of the interface, there is a text prompt 'Start by selecting your Education Level above.' and an orange button labeled 'Search & Open Resources' with a magnifying glass icon.

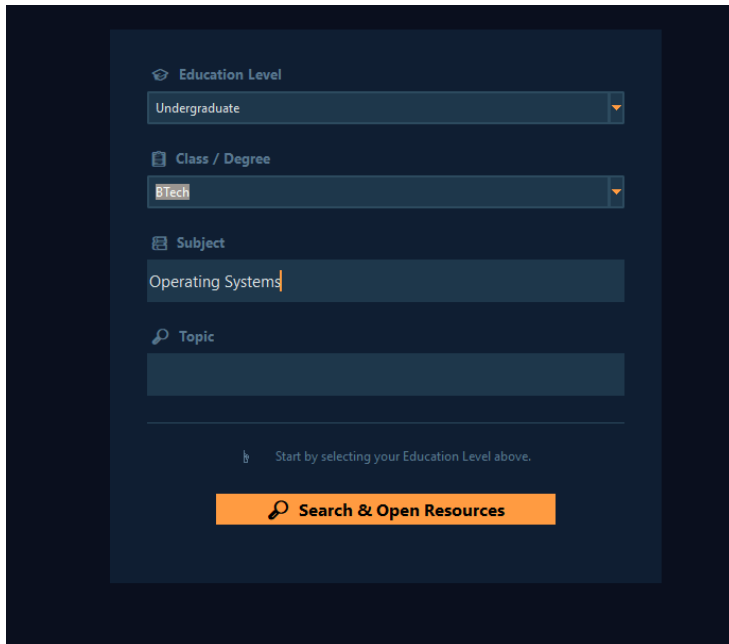

This screenshot shows the same interface as the previous one, but with 'Undergraduate' selected in the 'Education Level' dropdown. Consequently, the 'Class / Degree' list box now displays a list of degree options: BA, BCom, BSc, and BTech. The 'BTech' option is currently selected and highlighted in blue. The rest of the interface, including the 'Topic' search bar and the 'Search & Open Resources' button, remains the same.

- After selecting the level, the **Class/Degree** options will update automatically

- Choose your class (Example: BTech, Class 10, etc.)

◆ Step 4: Enter Subject

A screenshot of a search interface with a dark blue background. It features four input fields: 'Education Level' with a dropdown menu showing 'Undergraduate'; 'Class / Degree' with a dropdown menu showing 'BTech'; 'Subject' with a text input field containing 'Operating Systems'; and 'Topic' with an empty text input field. Below these fields is a small text hint: 'Start by selecting your Education Level above.' At the bottom is an orange button with a magnifying glass icon and the text 'Search & Open Resources'.

- Type your subject name
- Example: *Operating Systems*
- You don't need to type the exact full name — partial names also work

◆ Step 5: Enter Topic

Education Level
Undergraduate

Class / Degree
BTech

Subject
Operating Systems

Topic
CPU Scheduling

Start by selecting your Education Level above.

Search & Open Resources

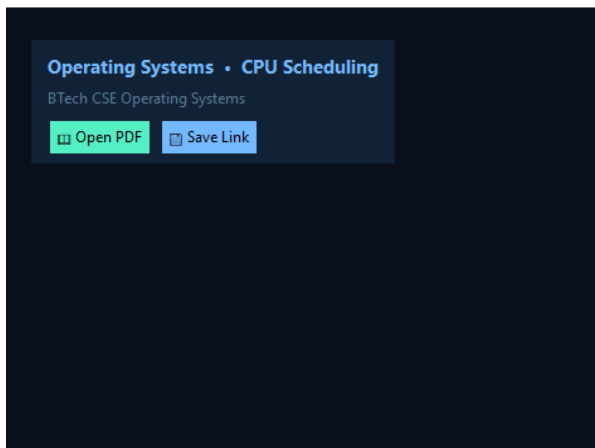

- Type the topic you want
- Example: *CPU Scheduling*
- This helps in finding more accurate resources

◆ **Step 6: Click Search**

- Click on **“Search & Open Resources”**
- The system will find matching study materials from the database

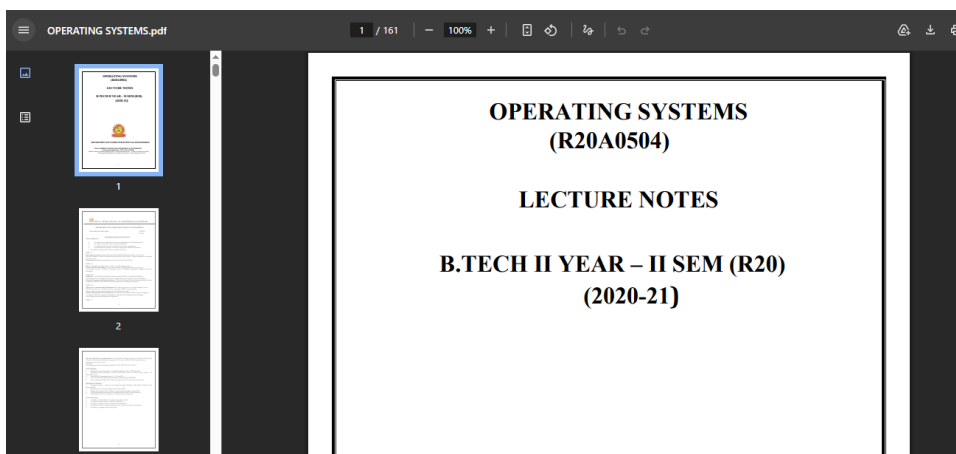

◆ **Step 7: View Results**

Resources Found

- A new window will open showing available resources
- Each result contains:
 - Subject + Topic
 - Book / Material Name

◆ Step 8: Use the Buttons

For each resource, you get two options:

✓ Open PDF

- Opens the study material directly

Save Link

- Saves the link for later use

◆ Step 9: If No Results Found

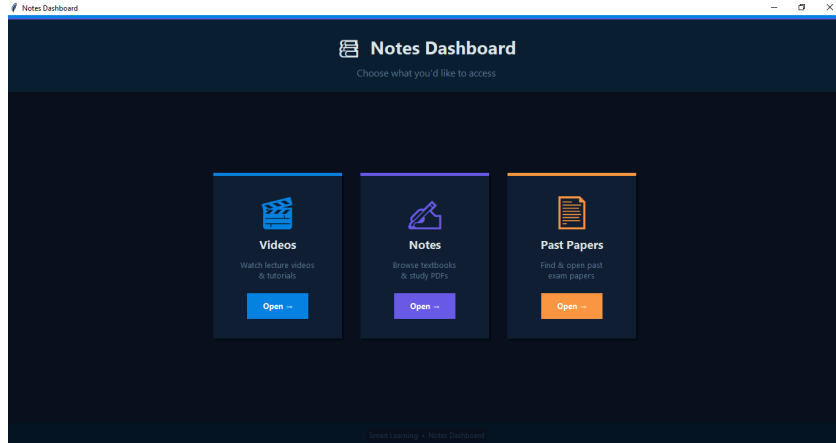

- You will see a message: **“No study resources found”**
- Try:
 - Changing topic spelling
 - Using simpler keywords
 - Removing topic and searching only by subject

✨ Key Features (Simple)

- Smart filtering based on your level and class
- Fast search using subject & topic
- Direct PDF access
- Save links for later
- Clean and easy interface

How to Use the Past Papers Finder Feature

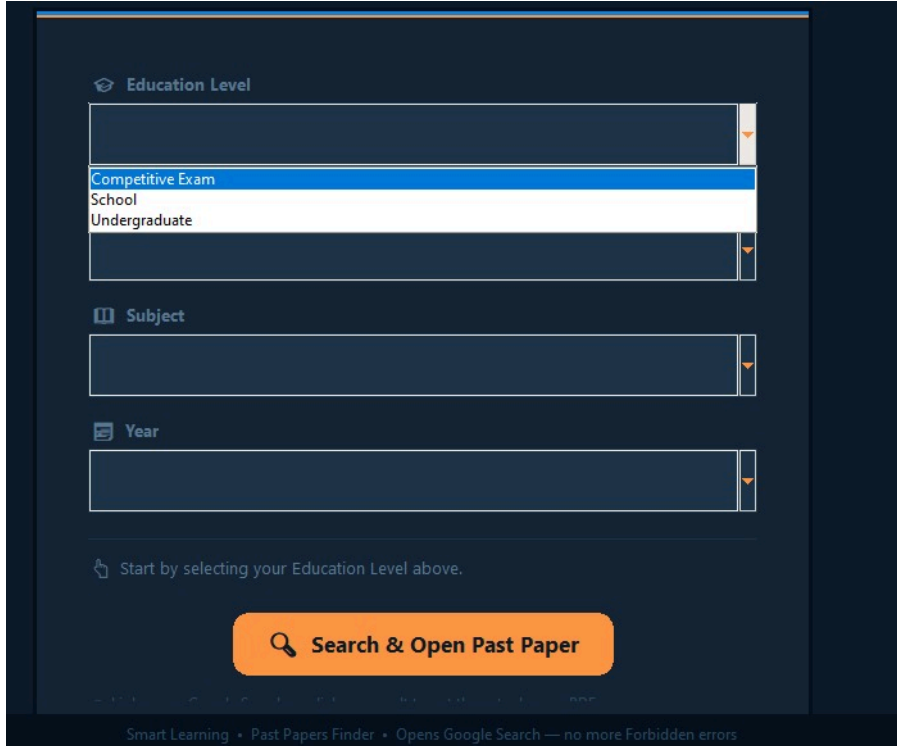

◆ Step 1: Open the Past Papers Section

-Open the Past Papers Finder from your dashboard.

-You will see options like Education Level, Class or Degree, Subject, and Year.

◆ Step 2: Select Education Level

The screenshot shows a dark-themed web interface for selecting an education level. At the top, there is a section titled 'Education Level' with a graduation cap icon. Below this title is a dropdown menu. The dropdown is open, showing three options: 'Competitive Exam' (highlighted in blue), 'School', and 'Undergraduate'. Below the dropdown is another empty dropdown menu. Further down, there is a 'Subject' section with a book icon and an empty dropdown menu. Below that is a 'Year' section with a calendar icon and an empty dropdown menu. At the bottom of the form area, there is a text prompt: 'Start by selecting your Education Level above.' Below this prompt is a large orange button with a magnifying glass icon and the text 'Search & Open Past Paper'. At the very bottom of the page, there is a footer with the text: 'Smart Learning • Past Papers Finder • Opens Google Search — no more Forbidden errors'.

-Click on Education Level and choose your level such as School or Undergraduate.

- This helps filter the data correctly.

◆ Step 3: Select Class or Degree

Education Level
Undergraduate

Class / Degree
BTech

Subject

Year

Now select your Subject.

Search & Open Past Paper

- After selecting the level, the Class or Degree options will update automatically.
- Choose your class such as BTech or Class 10.

◆ Step 4: Select or Type Subject

Education Level
Undergraduate

Class / Degree
BTech

Subject

Algorithms
Artificial Intelligence
Automobile Engineering
CAD/CAM
Circuit Theory
Communication Systems
Compiler Design
Computer Architecture
Computer Networks
Concrete Technology

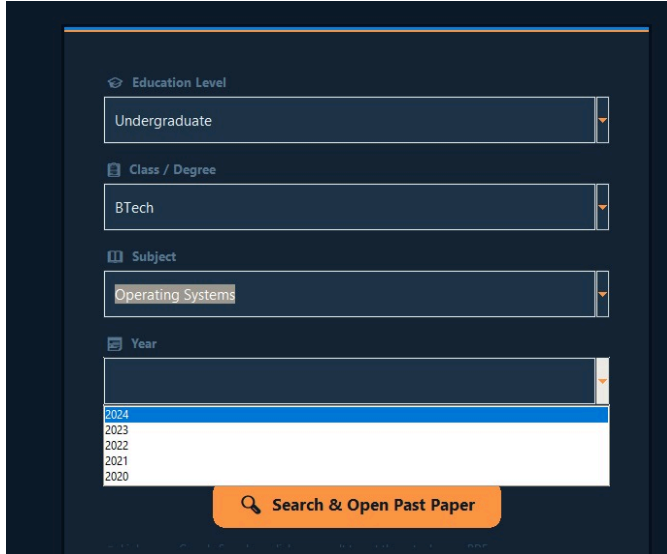

Search & Open Past Paper

Choose your subject from the dropdown or type it manually.

Example: Operating Systems

The system will also suggest subjects as you type.

◆ Step 5: Select Year

The screenshot shows a dark-themed web interface with four dropdown menus. The first menu is labeled 'Education Level' and has 'Undergraduate' selected. The second menu is labeled 'Class / Degree' and has 'BTech' selected. The third menu is labeled 'Subject' and has 'Operating Systems' selected. The fourth menu is labeled 'Year' and has a list of years from 2020 to 2024, with 2024 highlighted in blue. Below the menus is an orange button with a magnifying glass icon and the text 'Search & Open Past Paper'.

Choose the year of the question paper.

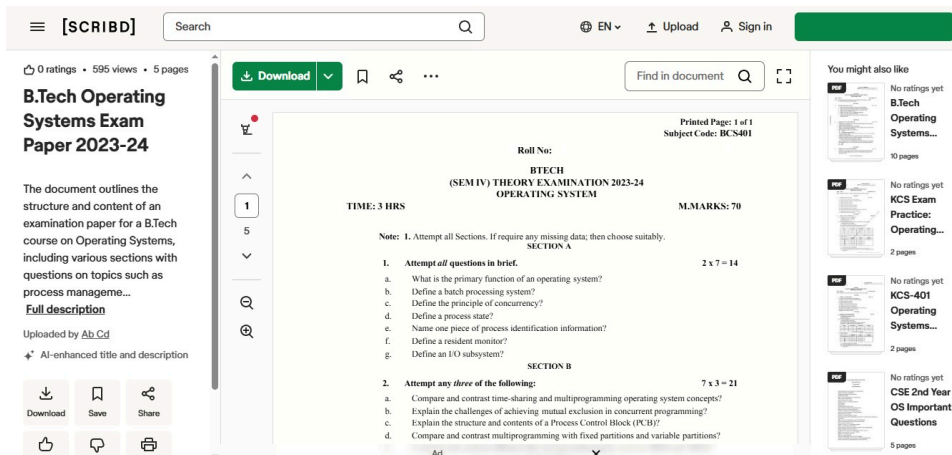

Example: 2023 or 2022-2023

This helps in finding papers from a specific year.

◆ Step 6: Click Search

Click on “Search and Open Past Paper”. The system will search for the matching paper.

◆ Step 7: View Result

The screenshot shows a Scribd document viewer. The document title is 'B.Tech Operating Systems Exam Paper 2023-24'. The document is 5 pages long and has 595 views. The document content is a B.Tech (SEM IV) THEORY EXAMINATION 2023-24 OPERATING SYSTEM. The exam is 3 hours long and has a maximum mark of 70. The document is divided into two sections: SECTION A and SECTION B. SECTION A contains 10 questions, and SECTION B contains 10 questions. The document is displayed in a browser window with a search bar and a 'Find in document' button. The browser window also shows a sidebar with 'You might also like' recommendations.

If a match is found, your browser will open automatically with a Google search page related to the selected paper.

◆ Step 8: If No Results Found

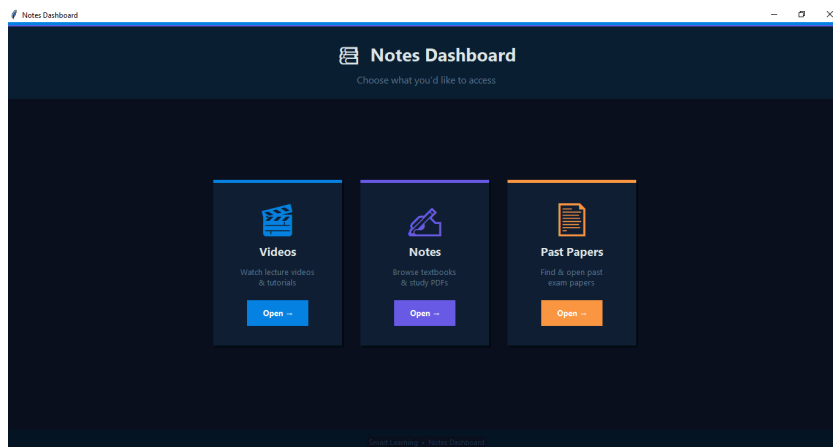

If no matching paper is found, a message will be shown. Try selecting options from the dropdown instead of typing or check if the subject and year are correct.

✨ Key Features

This feature filters results based on education level, class, subject, and year. It allows both typing and selecting subjects. It opens Google search automatically for easy access to papers. The interface is simple and easy to use.

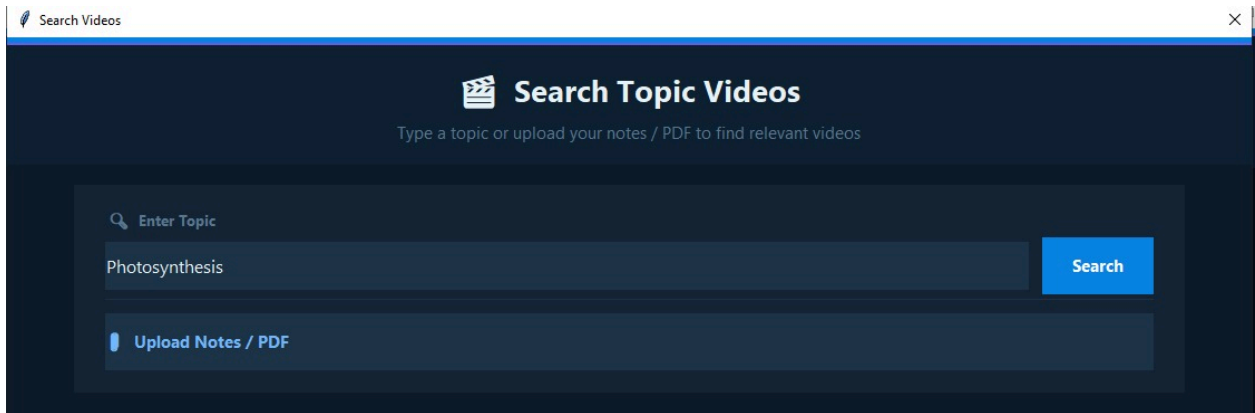

How to Use the Video Search Feature

◆ Step 1: Open the Video Section

Open the Video Search feature from your dashboard. You will see a search bar and an option to upload notes or a PDF.

◆ Step 2: Enter Topic

( Insert Image 2: Topic Input Field)

Type the topic you want to learn.

Example: CPU Scheduling

You can enter any subject or concept.

◆ Step 3: Click Search

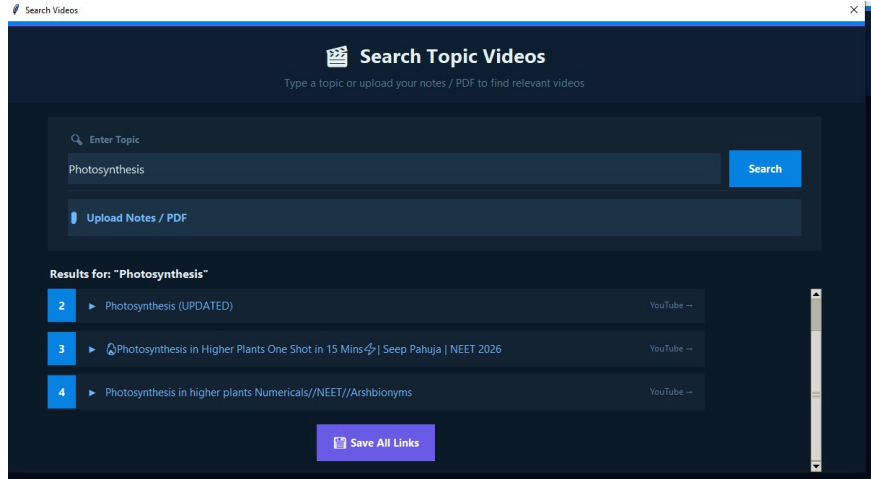

Click on the Search button. The system will start finding relevant videos for your topic.

◆ Step 4: Wait for Results

A message will appear saying “Searching videos, please wait...”

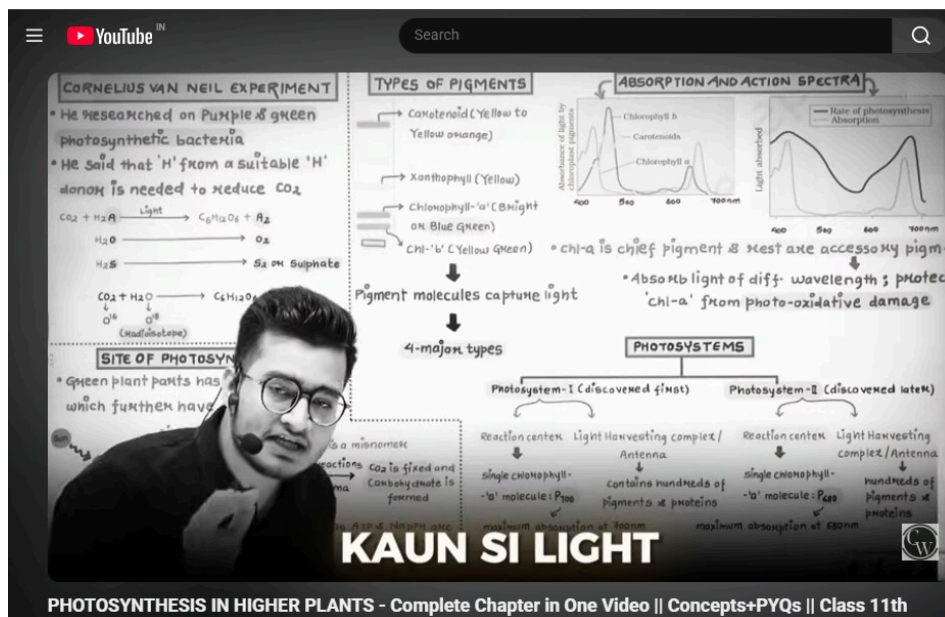

The system searches different types of videos like full lectures, beginner guides, and revision videos.

◆ Step 5: View Video Results

You will see a list of videos with titles. Each video represents a different type of learning content.

◆ Step 6: Open a Video

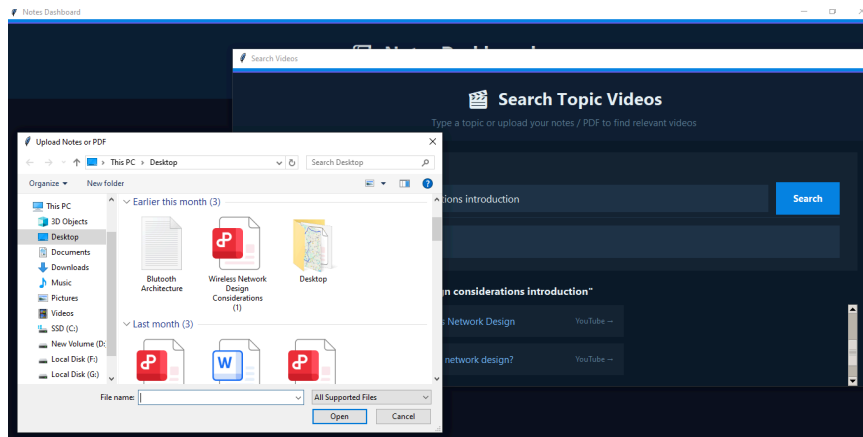

Click on any video title. It will open directly in your browser (YouTube).

◆ Step 7: Save All Video Links

Click on “Save All Links” to save all video links into a PDF file.

You can use this later for quick access.

◆ Step 8: Upload Notes or PDF (Optional)

Click on “Upload Notes / PDF” if you don’t know what to search.

Select your file, and the system will automatically extract keywords and search videos based on your notes.

◆ Step 9: If No Results Found

If no videos are found, a message will appear.

Try using a different topic or simpler keywords.

✨ Key Features

- Search videos using topic name
- Automatically finds different types of learning videos
- Clickable links that open directly in browser
- Save all video links in a PDF file

SMART LEARNING – SCHEDULE MODULE (USER GUIDE)

STEP 1: Open the Application

- Run the program 
- Main screen will appear
- Click on “**Study Schedule**”

[IMAGE 1: MAIN SCREEN]

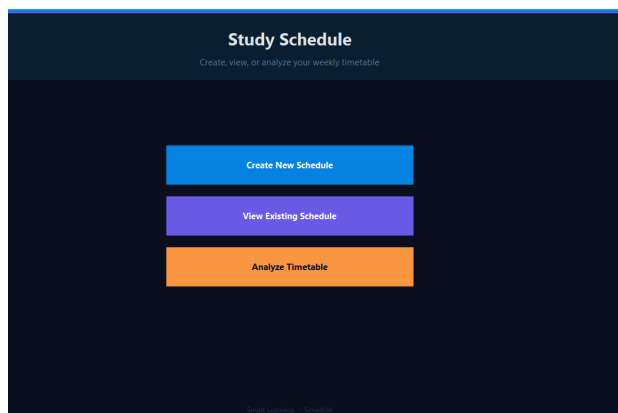

Caption: Figure 1 – Application Home Screen showing main options

STEP 2: Choose an Option

You will see three options:

-  Create New Schedule
-  View Existing Schedule
-  Analyze Timetable

OPTION 1: CREATE NEW SCHEDULE

STEP 3: Enter Subject Details

- Enter number of subjects
- Click **“Add Subject Fields”**
- Fill each subject name

Create Study Schedule

Fill in your subjects and available time

How many subjects do you have?

4

Subject 1:

TCS

Subject 2:

OS

Subject 3:

WC

Subject 4:

PYTHON

Add Subject Fields

Which subjects are you weak in? Separate multiple subjects with commas

TCS , PYTHON

Create Study Schedule

Fill in your subjects and available time

PYTHON

Add Subject Fields

Which subjects are you weak in? Separate multiple subjects with commas

TCS , PYTHON

Which subjects are you confident in? Separate multiple subjects with commas

CNND

Start Time (HH:MM) e.g. 07:00

8:00

End Time (HH:MM) e.g. 15:00

15:00

Generate My Schedule

Smart Learning - Schedule Creator

Enter Weak Subjects

Example:

Math, Physics

Enter Confident Subjects

Example:

English, History

Enter Time Range

- Start Time: 07:00
- End Time: 15:00

Important Rules

-  No duplicate subjects
-  Weak subjects must match subject list
-  End time must be greater than start time

STEP 4: Generate Schedule

Click:

 **“Generate My Schedule”**

OPTION 2: VIEW SCHEDULE

STEP 5: Understand Timetable

- Rows → Time slots 
- Columns → Days 
- Cells → Subjects / Breaks

Weekly Timetable

Report Edit Schedule Save Changes Progress: 0.0%

Single-click a study cell to mark it done. Double-click a study cell to start timer.
